

PSNH Merrimack (SD) – Sharon is permit writer and project manager. She should coordinate monthly team meetings; track progress. We are issuing a draft 308 to get some temperature data from PSNH in response to letter sent to us questioning analysis. Sharon is working on how it implement new ELG (including bottom ash transport and FGD). Donna is organizing RTC. I've asked Danielle to be part of the team to help with 316(b) responses. Mark should be working with Eric on review of 316(a) responses.

Apart from attending monthly meetings, there should not be need for management oversight.

Ex. 5 - Deliberative Process, Non-Responsive (addresses other permits)
